

**Kingfisher International Inc. (KFI)** is looking for a Study Director to conduct veterinary pre-clinical laboratory studies. KFI is a veterinary contract research facility, carrying out studies with cats and dogs in support of drug, nutritional supplement, and vaccines development exclusively for the veterinary market in Canada, the US, and internationally. We have an active Animal Care Committee and are accredited by the CCAC, CFIA and OMAFRA.

The successful candidate will be managing a diverse study team and will be responsible for protocol development, study execution, interpretation and analysis of results obtained, and preparation of final study reports. Strong communication skills (both verbal and written) are mandatory for this position.

We are looking for candidates who can:

- Act as the single point of control on regulatory and non-regulatory studies (including pharmacokinetics, pharmacodynamics, bioequivalence, safety/tolerance, dose-finding and exploratory/first in species).
- Write clear and concise study protocols, animal use protocols, and final study reports.
- Provide leadership to study teams consisting of study coordinators, study associates, quality assurance personnel, veterinarians, veterinary technicians, animal care staff, external scientists, and contracted vendors.
- Provide input into the design, writing and review of facility Standard Operating Procedures.
- Work in a manner that is proactive, organized, professional, and respectful of the diverse backgrounds of our staff and clients.

**Qualifications:** A veterinary degree with an interest in research and pharmaceutical product development. Knowledge in pharmacokinetics, pharmacodynamics, drug product formulation, bioanalytical methodologies, toxicological pathology, and GLP regulatory requirements are assets. Individuals must have a G class driver's license and be able to drive to work (Stouffville is not well served by public transit).

**Hours of work:** 8:00 to 16:00 with occasional weekends/holidays and extended hours as dictated by study needs.

**Location:** Stouffville, Ontario.

**Remuneration:** Starting salary \$80,000/year. Additional benefits following completion of a probationary period include: CE support, select professional dues, access to group benefits, and 3 weeks annual paid annual vacation.

**To apply:** Submit cover letter and CV to [info@kingfisherint.com](mailto:info@kingfisherint.com).
