

Veterinarian Consultant

Vivocore Inc. is a dynamic contract research organization with both companion animal (dog/cat) and rodent models. The company provides a friendly, supportive and team-oriented working environment. We are located in Fergus, Ontario.

About the Job:

This is a great opportunity for a Veterinarian with a flexible schedule and an interest in research. A veterinarian is required to provide intermittent veterinary support. Laboratory animal or research experience preferred but not essential.

Compensation will be comprised of a base consulting contract plus hourly compensation for clinical time at the facility.
